7	8	45	4
SHIPPED & DOCUMENTED SYSTEMS	YEARS OF FULL-STACK PRACTICE	TRACED REQUIREMENTS (ANKA / AFD)	DEVELOPERS MENTORED

SKILLS

FRONTEND

React 18/19, TypeScript, Next.js, React Native, Tailwind CSS, Vite, Zustand

BACKEND

Node.js, NestJS, Express 5, PostgreSQL, Supabase, Firebase, SQLite (WAL), GraphQL, REST

ARCHITECTURE

Multi-tenant SaaS, RBAC, offline-first, Electron, PWA / IndexedDB, Docker, CI/CD, Linux

INTEGRATION & AUTOMATION

Make, n8n, webhooks, Sage ERP APIs, BI dashboards

AI & DATA

Python, OpenCV, TensorFlow, algorithms

GOVERNANCE

Agile / Scrum, functional framing, SQL acceptance, traceability matrix, mentoring

LANGUAGES

French (fluent) · English (professional, technical interviews) · Malagasy (native)

FRAMEWORK & AVAILABILITY

Missi Innovation — sole proprietorship registered in Madagascar. Invoicing in MGA or EUR; tax identifiers (NIF / STAT) on request. Direct freelance, international employer-of-record or agency subcontracting. Available immediately, remote worldwide (UTC+3).

PROFILE

Technical architect and lead full-stack, **8 years of practice**: system resilience (**offline-first**), **multi-tenant SaaS**, mentoring remote teams. From functional framing to production, I design measurable systems and train the teams that keep them alive.

PROFESSIONAL EXPERIENCE

Independent consultant / Technical architect
2025 — present

Missi Innovation · Antananarivo — international remote

End-to-end design, decisions traced in ADRs, **systems that hold up when the network goes down**.

- **ANKA (Digital Energy Challenge, AFD/EU)**: donor TDR breakdown → MVP and matrix of 45 traced requirements (TR-01→TR-45); offline-first ESG field collection (React + Dexie PWA, NestJS API, 14 days offline); design dossier delivered to the donor.
- **ResHPro**: multi-tenant hospitality SaaS (POS, inventory, RBAC) — real-time booking engine with **zero double bookings**, React 18, PostgreSQL, RLS (ADR-002).
- **Study-Agent**: school ERP in production (Manjary Soa High School) — grades & official report cards, Electron, SQLite WAL, Supabase, offline-safe entry; Make & n8n.
- **Maboo**: frontend lead, headless storefront React 19 / React Router 7 SSR — **LCP < 1.2s on 4G**, i18n & online quotes (client code not public).

Technical architect & mobile lead
2025 — 2026

Given Day Tech · France (non-profit) — remote

Leading **4 developers** remotely (agile backlog, prioritization, code reviews, delivery follow-up); React Native + Node.js architecture derived from business requirements.

▸ React Native · Node.js · code reviews · mentoring

Senior full-stack developer
2025 — present

ToutPourSaGloire.com · international — remote

Next.js overhaul and GraphQL APIs; Meilisearch search engine: **40% less loading time** (measured in development environment).

▸ Next.js · Meilisearch · web performance

CMS developer & UI/UX designer
2023 — 2024

RICSM · United States — remote, contracted via IKS Antananarivo

US institutional portal compliant with **WCAG**; Squarespace sites for international clients, Figma mockups, SEO; **team trained** on CMS basics.

▸ Squarespace · Figma · SEO · team training

Full-stack & OCR pipeline engineering intern
May — Oct 2022

EQIMA Solution · Ivandry, Antananarivo

OCR pipeline (OpenCV) into the Sage ERP API: **70% less processing time** for accounting teams.

▸ Python · OpenCV · Sage ERP API

ADSL technical service — SFR France customers
Oct — Dec 2019

Intelcia Tanjombato · Antananarivo

Level-1 support for SFR France ADSL customers, during the second bachelor year.

▸ Level-1 support · ADSL · customer care

EDUCATION

MSc Electronics, Computer Science & AI

ISPM · 2022 — 2024

Defended and validated; diploma being issued. Computer vision, Deep Learning, signal processing.

BSc Electronics & Computer Science

ISPM · 2018 — 2022

Baccalauréat série D (science track)

La Pépite d'Or private high school, Antananarivo · 2018

2019 → 2024: five annual group study projects (AR + AI, biometrics, GPS, embedded) — details on the portfolio.

ARCHITECTURE DECISIONS

ADR-001	**Offline-first SQLite (WAL) + Supabase.** Adopted, in production: hold up without stable network or power.
ADR-002	**Multi-tenant isolation via PostgreSQL RLS.** Framed, migration in progress: preferred over multi-database splitting.
ADR-003	**SSR React Router 7 with streaming.** Deployed (Maboo): non-critical blocks streamed after critical content.
