ManoaRANDRIANARISOA
Antananarivo (UTC+3) · Available

ISPM graduate (Master's in Electronics & AI), full-stack developer moving towards application architecture and technical leadership. Specialised in designing resilient systems (**Offline-First, multi-tenant SaaS**) and in end-to-end delivery, from functional scoping to production release.

PROFESSIONAL EXPERIENCE

Independent Consultant & Software Designer
Jan 2025 – Present

Multi-project engagements run in parallel · Madagascar, France & International

Missi Innovation
Head of IT · 2025 – Present

Publisher of a business suite & SaaS (ResiPro, Study Agent Pro) (Antananarivo)

ResHPro — Hospitality, Restaurant & Inventory SaaS Suite

- Multi-tenant SaaS architecture (**React, TypeScript, Node.js, PostgreSQL**) with strict data isolation and role-based access control (**RBAC**).
- Real-time visual booking engine with `zero double bookings`, traceable stock & loss tracking and analytical reporting.

Study-Agent — School Management & Desktop Application (Manjary Soa Private High School)

- Desktop and web application deployed in production (**Electron, React**) automating schooling, grades and official report-card issuance.
- Resilient **Offline-First** architecture: cloud synchronisation (**Supabase**), high-speed local cache (**SQLite**) and automated **n8n / Make.com** flows (web forms → back-office → Excel exports).

ANKA Operator
Scoping & Architecture · 2026

Digital Energy Challenge programme (AFD / EU)

ESG field-collection platform & off-grid rural electrification

- Analysis of the donor's ToR (AFD): MVP prioritisation and modelling of a `45 traced requirements` matrix (TR-01 → TR-45).
- **Offline-First** architecture for field agents in isolated rural areas: local data model and deferred synchronisation.
- End-to-end delivery of the technical foundation (offline field app, back-office, API and interface contracts) and of the design dossier handed to the donor.

Given Day Tech
Mobile Lead · Apr 2025 – Apr 2026

Mobile & EdTech Platform Publisher (France, Remote)

- Design of the complete software architecture (**React Native, Node.js, PostgreSQL**) derived from business requirements.
- Technical leadership and coordination of `4 developers`: agile backlog, prioritisation, code reviews and delivery follow-up.

ToutPourSaGloire.com
Full-Stack Developer · Feb 2025 – May 2026

Web Media Platform (International, Remote)

- Modular refactoring of key sections with **React / Next.js** and **GraphQL** API integration.
- Integration of the instant search engine (**Meilisearch**): `-40 %` on measured load time.

Maboo
Full-Stack SSR · 2025

Headless E-Commerce & High-Performance CMS

- Custom headless store (**React 19, React Router SSR, Zustand**): Core Web Vitals optimisation (`LCP < 1.2s` on 4G).
- Multilingual dynamic catalogue (**i18n**), connected online quote management, checkout funnel and stock alerts.

RICSM
Dec 2023 – Dec 2024

Web Developer & UX/UI Designer · Institutional portal (United States, Remote)

- UX/UI design (**Figma**) and responsive development with **Squarespace / Web**.
- Delivery of a complete institutional portal compliant with accessibility requirements (**WCAG**) and US standards.

EQIMA
May – Oct 2022

Full-Stack Developer · Accounting automation (Antananarivo)

- Digitisation of accounting processing via OCR and **direct integration with the Sage ERP API**.
- Invoice flow automation: `-70 %` measured processing time.

KEY SKILLS

Design & Architecture

Offline-First · Multi-Tenant SaaS · ToR scoping · Requirements matrix · RBAC · OpenAPI contracts · SQL modelling

Front-End & Mobile

React 18/19 · TypeScript · Next.js · React Native · Electron · PWA · TailwindCSS · Zustand · SSR / i18n

Back-End & Data

Node.js · PostgreSQL · NestJS · Express · SQLite (WAL) · Supabase · GraphQL · REST

Automation & Leadership

n8n / Make.com · Webhooks · Docker · Git / CI/CD · Agile Scrum · Code reviews · Meilisearch · Figma

METHODS & STRENGTHS

- **Engineering rigour:** unit & integration tests, CI/CD, code reviews and architecture documentation (ADR).
- **Agile multi-project management:** value-driven prioritisation, technical vulgarisation and full remote autonomy.
- **Resilient systems:** mastery of Offline-First constraints (deferred sync) and multi-tenant SaaS data isolation.

EDUCATION

Master's in Electronics, Computer Science & AI

ISPM Antananarivo · 2022 – 2024

Focus on advanced software engineering, algorithms & AI

Bachelor's in Electronics & Computer Science

ISPM Antananarivo · 2018 – 2022

Distributed systems, SQL modelling and architectures

LANGUAGES

French	Bilingual (working language)
English	Professional & technical
